PREFACE

The Check List of United Nations Documents will be a complete list of the documents issued by the organs of the United Nations. The Check List will appear in separate parts, each one devoted to the documents of a particular organ. The following table discloses the general plan:

Part

1 General Assembly (and subsidiary organs)
2 Security Council (and subsidiary organs)
3 Atomic Energy Commission
4 Trusteeship Council
5 Economic and Social Council

Functional Commissions of the Economic and Social Council

6A Economic and Employment Commission
6B Transport and Communications Commission
6C Statistical Commission
6D Commission on Human Rights
6E Social Commission
6F Commission on the Status of Women
6G Commission on Narcotic Drugs (and related bodies)
6H Fiscal Commission
6J Population Commission

Regional Economic Commissions of the Economic and Social Council

7A Economic Commission for Europe
7B Economic Commission for Asia and the Far East
7C Economic Commission for Latin America

8 United Nations Appeal for Children; United Nations International Children's Emergency Fund
9 Secretariat: publications

The individual parts of the Check List are issued in one or more numbers listing documents issued from the beginning of 1946 to the end of 1949. Part 3, however, comprises all the documents of the Atomic Energy Commission and its committees issued during 1946-1952, as very few documents of the Commission were issued after 1949, and the Commission was dissolved in 1952.

In addition to the list of documents, every part will contain a subject-index and introductory notes giving information on the organization of the bodies concerned. It also notes the unpublished records of the meetings and sound recordings deposited in the Archives of the United Nations and the press releases concerning the meetings.

The user of this volume will find it more helpful if he first reads carefully the explanations to the Check List and the Subject-Index.

EXPLANATION

ENTRY NUMBER. Documents are referred to by entry numbers in the index to this Check List. Entry numbers do not appear on the documents and should not be used in citations.

LANGUAGE OF ISSUE. The language editions in which a document is issued are indicated as English (E), French (F), Spanish (S), Russian (R), Chinese (C), or bilingual - English-French (E&F) texts.

DOCUMENT SYMBOL AND SHORT TITLE. The official document symbol number precedes the title entry. This symbol should be used in citing documents. In the case of publications without document symbol numbers, titles should be cited together with the session number, issue number, supplement number, and volume number, whichever is included in the entry. Title entries have been standardized and shortened or expanded in order to clarify the meaning of the titles and the authorship of the documents, thus the entries do not always conform literally to the actual documentary titles. The collation shows the pagination of the English or bilingual English-French text only. The date appearing on each document below the document symbol number is usually the date of registration of the documentary text with the Bureau of Documents for publication and translation and should be the same in all language texts. The date of registration closes each entry. Corrigenda and revisions usually are grouped with the parent document in the same entry. Corrigenda are corrections of errors in the text, title, date and classification of documents, amendations of the translation, and additions of omitted text. Addenda include supplementary material, such as annexes, tables and other additional communications. Revisions are texts revised through formal amendment, or new editions prepared by the submitting delegation or by the Secretariat.

REPUBLICATION NOTES indicate the republication of whole documents in other documents or in the Official Records. In the case of resolutions only their republication in collected sets is indicated, in the case of draft resolutions no attempt is made to note the inclusion of their texts in the verbatim records of meetings.

INTRODUCTORY NOTES give a short parliamentary history of the Commission and describe briefly each Committee, including the date of its appointment, citing its terms of reference, naming its members and officers, listing its reports and document series symbol (if any), and tabulating its meeting records. The plenary meetings are shown in tables for each year. The tables indicate both published and unpublished meeting records and related press releases.

1 **Establishment of the Atomic Energy Commission**

The Atomic Energy Commission was established by General Assembly resolution 1 (I), adopted on 24 January 1946, and determining the terms of reference and composition of the Commission. The membership is the same as that of the Security Council with the addition of Canada whenever that State is not a member of the Security Council. The Commission was dissolved by General Assembly resolution 502 (VI), adopted 11 January 1952.

SUBJECT-INDEX

Explanation

All references to documents are made to entry numbers in the Check List under which the document symbol, title, language, date, republication note etc. will be found. Records of meetings are indexed by the entry numbers of the relevant documents and of the tables of meetings, and, following a colon (:), by meeting numbers. The word discussion refers both to meeting records of plenary meetings of the Commission and committee meetings. Documents are distinguished as General documents, referring to more than one subject, and as specific documents, referring to one subject in particular. Thus in the following entries in the Subject-Index:

Inspections, surveys and explorations
- General documents: 20, 138, 196, 197, 202
- Specific documents:
  - Australia 82, 279
  - Canada 81
  - Canada, U. S. A. 277
  - China 270
- Discussion: 5:12, 13

the subject "Inspections, surveys and explorations" appears in documents containing other subjects as well listed as entries 20, 138, 196, 197, 202; the subject is treated in specific documents confined to this particular subject in documents submitted by Australia, Canada, China, etc., listed as entries 82, 279, 81, etc. The meetings in which the subject was discussed are listed in the table of meetings of the Commission as entry 5. In this table the 12th and 13th meetings are shown to have taken place on 11 June and 10 September 1946 and the proceedings recorded in AEC/PV. 12-13.
